

British Felt Banners

Photography, Exhibition Banners and Business Cards.

These banners look so good, they are on display in their conference room while there not at exhibitions! They look absolutely stunning, We also produced business cards which you can see here. They used QR codes on the banners as well as the cards.

QR or **Quick Response Codes** are a type of two-dimensional barcode that can be read using smartphones and dedicated QR reading devices, that link directly to text, emails, websites, phone numbers and more! You may have even got to this site by scanning a QR code!

Our Banner Stands extend to 2 metres high, and automatically roll up to be stored or transported easily. They can be used again and again. They come complete with graphic printed on special material designed to remain flat. They are available in two sizes 800mm and 1000mm.

If your are interested in having some of your own specially created banners call us on 01908 57848 or complete the form below.
