Looking for a local website Design in Milton Keynes, offering great support, training and services?]

Blank Canvas

We love blank canvasses! It gives us the opportunity to shine and exceed your expectations with a stunning website that ticks every box.

Revamp/Redesign

If your website is looking tired and dated, it could be affecting your business with a high click-away rate, which will also affect your page rank. Before it disappears into oblivion, give it some TLC and a kick up the coding to bring it back to life. We love revamps, especially your face when you see the 'new you'!

Help with a poor performer

Many people have a go and create a DIY website, then wonder why their spangly new website doesn't bring in business. We see many such horrors online - DIY disasters with no search engine potential, visually unbalanced, lacking navigation structure, disorganised copy and so on. Statistically, you only get an 8-second chance to make a fantastic first impression, so your website must grab attention fast, or your visitor will yawn and click away.

[/vc_column_text][vc_column][vc_row][vc_row][vc_column width="2/3"][vc_column_text css_animation="bounce"]

Some DIY websites only need a few layers of expertise applying. Some sadly need to be scrapped and started again.

If someone else has created a poor performer for you, we can help, but you may need to move across to our hosting first, then you will be well en route to a better performing website!

Finally... is your website 'Responsive'?

Nowadays websites must be coded so that they work on a variety of media (tablets, phones, laptops and PCs), the old style websites weren't coded in this way and tend to only function properly on a PC, all websites created by Narked are 'responsive' websites, so will look good and function well no matter what device they are viewed on.

Questions to expect...

- We will want to know what your website is to be used for ? is it just a 'web presence', will you be selling on line, will you need people to add content... etc.

- Who is your target audience?

Who are your main competitors online?

Will you need photography or will you supply your own images?

- Will you supply web-ready copy?

- Do you want us to look after your hosting and email services?

- Would you like us to provide regular Search Engine Optimisation or just a one-off initial booster?
