

Website Services

Responsive Ready Website

Website Hosting]

If you need a reliable and powerful hosting platform, then a Virtual Private Server (VPS) is the most cost effective way to go. A virtual private server is a dedicated server that has been divided into separate virtual containers, each containing a virtual server that is private from the others. In terms of functionality a VPS functions exactly the same as any dedicated server but shares server resources with the other VPS on the same server.

Copy Writing

Google cannot rank your website based on how gorgeous it looks because it can't 'see' your site. It will rank your website based on how your visitors react, for instance, how long they stay, how many pages they visit, how they move around your site. If a visitor lands on your home page and clicks out of your site within a few seconds

Search Engine Optimisation

Narked is an internet marketing company, based in Milton Keynes, specialising in Search Engine Optimisation (SEO) and Pay Per Click (PPC) advertising. We help local companies dominate the Search Engine Results Pages (SERPs) such as Google, Yahoo and Bing, to drive highly targeted traffic to their website to generate leads, and ultimately, convert into sales.

Google Analytics

Google wants you to attract more of the traffic you are looking for, and help you turn more visitors into customers. Use Google Analytics to learn which online marketing initiatives are cost effective and see how visitors actually interact with your site. Make informed site design improvements, drive targeted traffic, and increase your conversions and profits.

Domain Names

We understand that some customers prefer to purchase their own web domains, and do their own domain name management. If you would like us to manage your domain name instead we are more than happy to purchase your domains and manage them together with your Narked website hosting. Your domain names are kept in a secure place and renewed automatically when they are due.
